

# Roller Banner Stands

## Basic - entry level

### Visible Printed Graphic Size – 800mm x 2000mm

This is our entry level economy stand and perfect for short-term or one-off events.

The main difference between this stand and our more popular 'Standard' choice is the gauge of the aluminium the stand and pole is manufactured from. This is still a great stand but most customers prefer to pay a little more for our 'Standard' option.

Weighs around 2.8Kg each including the printed graphic.

#### Why should I choose this option?

- Minimal use
- One off events

## Standard - most popular

### Visible Printed Graphic Size – 800mm x 2000mm

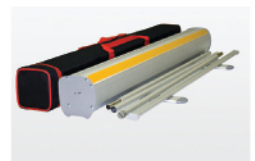

This is our most popular choice.

The only difference between this stand and our 'Plus' stands is the aluminium is a slightly lighter gauge.

Weighs around 3.0Kg each including the printed graphic.

#### Why should I choose this option?

- Medium term usage
- Use for a few events

## Plus - high quality

### Visible Printed Graphic Size – 800mm x 2000mm

The wise choice for those looking for a slightly more durable stand than our Standard. Our Reliable service use after use.

You won't be disappointed with the quality or ease of use of our 'Plus' roller banner stands.

Weighs just under 4.0Kg each including the printed graphic.

#### Why should I choose this option?

- Long term usage
- Use for multiple events

## Premium - top of the range

### Visible Printed Graphic Size – 800mm x 2150mm

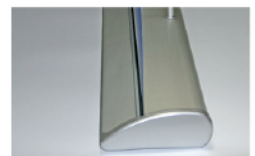

Top quality roll up banner stand for those who don't like the look of swing-out feet, or the extra floor space that they occupy, our 'Premium' 800mm is perfect. This is a solid stand made from thick aluminium with a flat sturdy base and no swing out feet.

'Premium' roller banner stands are 2150mm tall when erected.

Weighs around 6.0Kg each including the printed graphic.

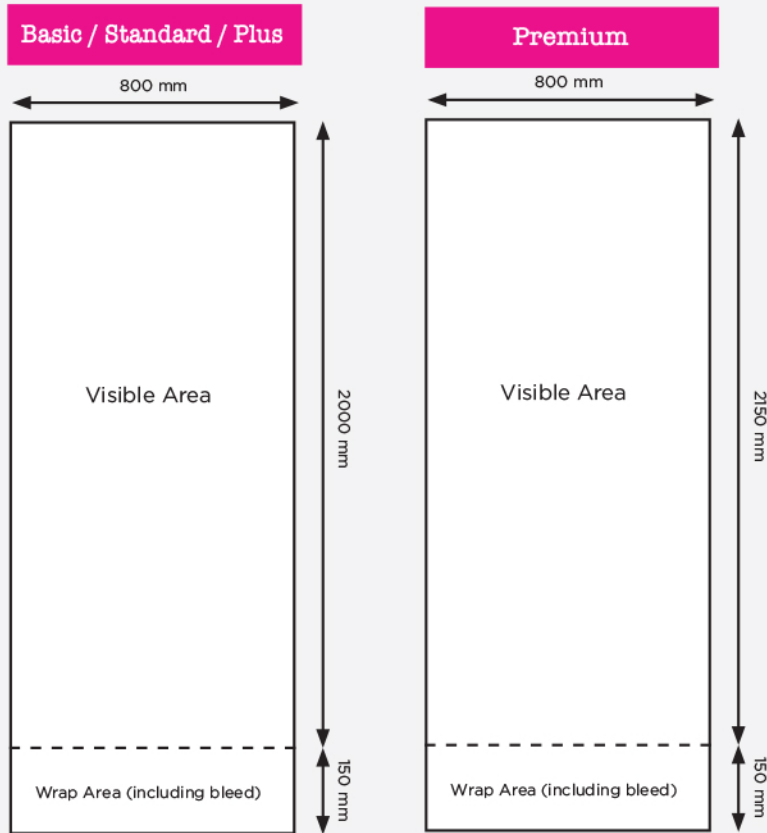

#### Why should I choose this option?

- Long term usage
- Premium appearance
- Use for multiple events
